M.R.Ry. K.S. Rajagopala Ayyar, permanent draftsman, Sanitary Engineer's Office - Appointment as temporary Sanitary Investigator.

There is a provision for a work charged Sanitary Investigator on Rs.110/- per mensem in the estimate for the Hospet Water Supply Investigation approved in G.O.,No.1277 P.H. dated 28th July 1926. The Sanitary Engineer appointed M.R.Ry. K.S. Rajagopala Ayyar, a permanent draftsman III Grad on Rs.56 plus 10 Presidency allowance, to the above post and fixed his pay in that post at Rs.100 per mensem. He stated that the subordinate was appointed as 'temporary' Sanitary Investigator and applied for the sanction of Government to his pay being fixed at Rs.100 per mensem in view of the responsible nature of the work and of the fact that he could not be expected to transfer his family and re-establish his home at Hospet for a short period, viz., 5 months and that his appointment would thus involve him in considerable extra expense. As there is no sanction of Government to the post of a 'temporary Sanitary Investigator', the Sanitary Engineer should not have appointed the subordinate as 'temporary Sanitary Investigator' nor even as a 'work charged Sanitary Investigator', as a permanent pensionable Government servant should not be appointed to 'work charged establishment'. As however the appointment was already made, the Sanitary Engineer was asked to report the exact period for which the subordinate would be employed on the work. He has now reported that the subordinate was employed as Sanitary

Investigator

Investigator from 13th September 1926 to 31st October 1926 and that the work had to be suspended from 1st November 1926 owing to the prevalence of plague at Hospet.

In the above circumstances, I request that the sanction of Government may be accorded to the appointment of a 'temporary Sanitary Investigator' on Rs.100/- per mensem from 13th September 1926 to 31st October 1926. The Accountant General has stated that the cost will be recoverable from the Hospet Municipality by debit to the estimate for its water supply investigation scheme.
